## ATTENDANCE ON THE INAUGURATION

Despite Harding's Desire for Simplicity, Promises to be by No Means Meager

(Associated Press)

Washington, March 3.—Despite the expressed desire of Mr. Harding for simple ceremonies, Washington today assumed very much of a pre-inauguration day air. The finishing touches were given to the stand at the capitol where the oath of office will be administered, and the police made final preparations for handling the crowds along Pennsylvania avenue. The absence of bands and marching clubs and spectators' stands is noticeable.

### BEATING THE NAVAL BILL

### NO GOOD, ANYHOW

Senator Poindexter, in charge of the naval bill, announced he had abandoned hope of passing it at this session. The senator criticized the measure as passed by the House, saying it would result in demoralization of the American navy.

Third, a customs boundary along the Rhine under allied control will be established. The Allies will not reduce the period of forty-two years allotted for payment of reparations.

### POOR GERMANS—THEY WERE MISUNDERSTOOD

Dr. Simons for the Germans said the intentions of the German government had been misunderstood and the German delegation would reply Monday noon. ## TOTAL HAS PASSED \$6500 IN- THE DRIVE FOR FUNDS FOR MARION COUNTY BOARD OF TRADE

Six Days Remain Before Close of Campaign Thursday Night.

The total in the Board of Trade drive for \$10,000 continues to rise. The subscriptions now amount to more than \$6500. The drive has six more days to go before it is brought to a close with the meeting of all subscribers next Thursday night, March 10, in the courthouse, when the proposed budget and program will be submitted for ratification. Subscriptions continue to be received from outside of the city and it is expected that many more will be obtained between now and next Thursday night.

A committee will cover the northwestern and southwestern sections of the county tomorrow and Saturday.

Attention is again directed to the fact that the \$10,000 is proposed as a fund to cover all of the activities of the Board of Trade for a year from March 1. The total asked for is not a large amount for a year and a county and city like Marion and Ocala to raise for a year's civic activities. Much money has been raised in the city and county in the past, but it has been raised in a more or less sporadic manner.

It is proposed that the money now being raised shall be spent according to a definite program, to be adopted at a meeting of the subscribers to the fund.

### JOHN SKELTON WILLIAMS THREW UP HIS JOB

Washington, March 3.—John Skelton Williams retired last night as comptroller of the currency. In accepting his resignation "with deep and genuine reluctance," President Wilson wrote Mr. Williams that he had been done a "gross injustice" by the way in which the Senate banking committee had handled the question of his reconfirmation.

"I can only believe, however," said the president, "that time will disclose the injustice to everybody and that the right verdict will be rendered by opinion, if not by one of the houses of Congress."

## TAKING A HOLIDAY PART OF TODAY

Harding Rests from His Labors as His Train Speeds Toward the White House

(Associated Press)

Aboard the Harding Special, Mch. 3.—Approaching Washington to assume the presidency, Warren G. Harding took a final holiday on his private car, putting work and worry aside. His inaugural address has been completed and only a definite choice for secretary of labor remained to complete the cabinet. Mr. Harding is not scheduled to reach the capital until late today.

### HARDING IN WASHINGTON

President-elect Harding reached Washington at 1 o'clock this afternoon and went into conference with the inaugural officials on the details of tomorrow's ceremonies.

### RECEIVER MADE REDUCTION

But no Strike Yet Ordered on the A. B. & A.

(Associated Press)

Chicago, March 3.—Sanction for the sixteen railroad brotherhoods and unions for a strike on the Atlanta, Birmingham & Atlantic railway was dispatched to local unions after a midnight conference of heads of the organization here. The receiver for the A. B. & A. recently ordered a wage reduction. The strike has not been called.

### Rubbing It In.

Patient—Doctor, the only thing that did my rheumatism any good was spirits of turpentine, which my daughter rubbed on my neck. A friend told me about it and it gave me so much relief that I began to read up about it to see what it was. First, I found that it was good for pains in the back, then for sprains, and finally I came to the conclusion that it was good for almost anything. And then I understood why most doctors can make a living.—London Ideas.

### Empty Cans Means of Great Harm.

Dogs and cats have been seriously hurt by forcing their heads into empty cans that have contained fish, meat, or soup. Sometimes they are not able to free themselves. Their terror is pitiable, and if not found they may run into some hiding place and die a miserable death. It would be easy to see that a can when emptied is pounded out of shape so that no animal can get its head into it. To do this might save great suffering.—Friends and Helpers.

### To Find the Gear of Bicycles.

To find the gear of a bicycle, divide the number of teeth in the front sprocket by the number of teeth in the rear sprocket and multiply by the diameter in inches of the rear wheel. For example: Twenty-one teeth in the front sprocket seven teeth in the rear sprocket and a 28-inch wheel. Twenty-one divided by seven equals three; three times twenty-eight is eighty-four—the gear of the bicycle.

### Code of Politics.

The code of politics is very simple and may be expressed in two sentences. The man who expects to remain a factor in politics must be loyal to his friends. Once he has given his word he must keep it regardless. These are the articles of faith, and they have been the superstructure of every political dynasty, great or small.—Jay E. House in the Saturday Evening Post.

### Remarkable Endurances.

A man, fifty years old, has walked from London to Yarmouth in less than twenty-eight hours. This distance is one hundred and twenty-four and a half miles. It would take a very good horse to equal such a feat. Another man, C. A. Harriman, tramped a distance of over one hundred and twenty-one miles without resting.—London Mail.

### No Statue of Georgian.

The secretary of the statutory hall in the capital says that there is no representative of Georgia in the Hall of Fame. Each state may contribute two statues of deceased citizens of the state, who "for historical renown or for civil or military services" are considered by the state as worthy of such commemoration.

### Food Value of Peanut.

Experiments on the digestibility of soy beans and peanuts, conducted by the United States department of agriculture, prove that these are especially valuable for human food and are well tolerated by the human body when cooked for two hours by steam at 15 pounds' pressure.

## WILSON AND COLBY ATTORNEYS AT LAW

(Associated Press)

### AGREED ON THE SIZE OF THE ARMY

(Associated Press)

Washington, March 3.—Senate and House conferees on the army appropriation bill reached an agreement last night to make provision for an army of 156,000 enlisted men for the next fiscal year. The agreement was a compromise between the Senate figure of 175,000 and the House maximum of 150,000, and apparently assures passage of the \$385,000,000 army budget at this session.

### W. L. MARTIN

Oxford, March 2.—Last Saturday, Feb. 26th, after many months of lingering illness, marked the last milestone of a good and useful man—the Rev. W. L. Martin—better known to the newspaper circle as "Peter Stanley." Mr. Martin had been with us only a few months, having moved here from Marion county, but his brief stay with us, and having served an adjoining community, gained him a large circle of friends in this part of the county.

Although so feeble that he could converse but little, he soon proved himself to be above the average man as a thinker, and notwithstanding his school advantages being very limited, he rose high in his early days as a writer, and in the newspaper profession, having edited some papers of his own, was once an important factor in the Pensacola Journal, had got several good stories of rural life through Collier's and has been intimately connected with the leading papers of Marion county. The last few years of his life was spent in the ministry of the gospel, having served the Baptist church about twelve years.

There is no better evidence of his almost unnumbered friends than the large concourse of people who assembled at Pine Level cemetery at Oxford last Sunday to pay their last sad respects; more than a thousand strong. No less than a dozen of the churches which he had served as pastor were represented by those who came to the last sad rites of one gone forever.

This loved citizen, husband and father died at the age of fifty, where manhood's morning almost touched noon, and while the shadows were still falling towards the west.

A short funeral service was conducted by his life-long friend, Col. R. F. Rogers of Ocala, after which there were a goodly number of Masons who gave him the honors of the Masonic burial.

He leaves a life companion, two sons and a little daughter with bleeding hearts, and time alone can heal their sorrow at his passing. A host of friends grieve with them in their bereavement.

A Friend.
